A tiger is the central focus of the image, walking towards the viewer. The tiger's fur is a vibrant orange with dark, well-defined black stripes. The background is almost entirely black, which makes the tiger stand out prominently. The lighting is dramatic, highlighting the texture of the tiger's fur and its facial features, including its eyes and whiskers. The tiger's expression is neutral as it moves forward.

## Level 2 Advanced Practice

Greetings!

Now that you have completed Level 1, I am personally inviting you to join me and Ger Murphy for the Level 2 advanced practice and integration workshop. Only open to level 1 graduates, it will be a special opportunity to earth, ignite and expand your Sacred Lovers practice.

There will time to recap on the level 1 material, receive some incredible advanced teachings, gain valuable knowledge and share your learnings with each other to become a more complete and integrated lover. With every practice it's essential to have a space to refresh and go deeper. So good to feel the support of an ongoing community of men who are also walking this path, without which inertia and the resistance of ego can easily sabotage our best intentions. In my experience there is literally no end to this journey, it just gets deeper and deeper.

This will be a small group to give adequate time for personal sharing. So join us in Dublin on June 26-27.

best wishes

On this weekend I will be teaming up with Ger Murphy. As many of you know Ger has been working as a psychotherapist, coach and trainer for the past 25 years using a blend of body focused approaches to facilitate transformation for individuals and organisations. He brings deep knowledge, extensive experience and a poetic lightness to this work.
